These instructions have been abbreviated to facilitate a quick setup. For a full list of transmitter programming instructions, refer to the **XTrac** installation manual, Section 5.9.

1. The **XTrac** offers the following five operations which can be operated using a transmitter or wall pendant button:

Function	Operation
Function One	Open/close garage door
Function Two	Switch Courtesy Light on/off
Function Three	Enable/disable Holiday Lockout
Function Four	Override Autoclose Override
Function Five	Learn all buttons

2. To program a button to activate one of the above mentioned functions, press the LEARN button:

Once	Function One
Twice	Function Two
Three times	Function Three
Four times	Function Four
Five times	Function Five

3. Press and hold the desired remote or wall pendant button for three seconds.

4. Proceed this way to add additional buttons.

5. The system will remain in Learn Mode for ten seconds after the last button press.
