

PHYSICAL ACCESS CONTROL

Turnstile full-height and waist-height
Speed gate

Centurion Systems is a Company of the
FAAC Simply Automatic Business Unit

TURNSTILES

Our turnstiles offer amongst the lowest energy consumption levels in the industry helping our users to save on their energy spend from day one.

Turnstiles

We offer a complete range of patented turnstiles and are able to customise to any requirement.

Motorised turnstiles are also available.

Half-height / waist-high pedestrian turnstiles

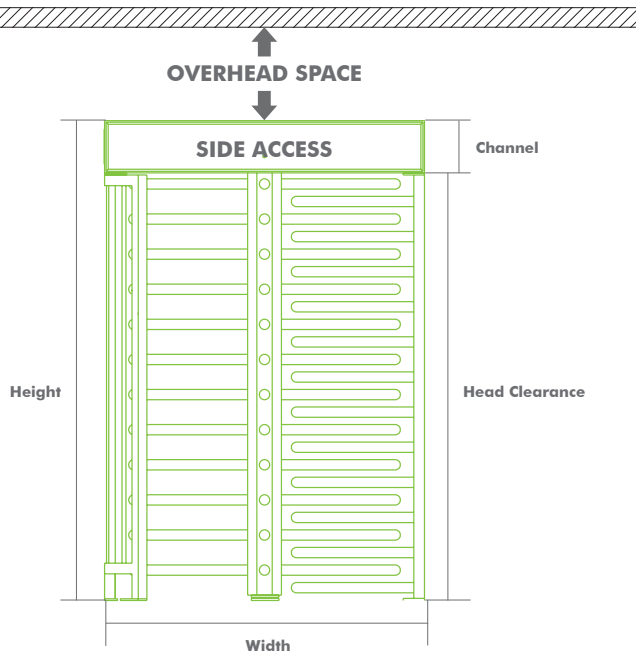

We offer a complete range of mechanical as well as motorised pedestrian turnstiles. We are also able to customise our products and outer designs to customer specifications.

3 ARM TURNSTILE

	Overall dimensions	Head clearance	Minimum opening required	Plinth requirements
Single	1500 X 2250 X 1200 ¹	2005mm	1520 X 2300 ¹	1700 X 1500 X 175 ¹
Double	2300 X 2250 X 1400 ¹	2005mm	2320 X 2300 ¹	2500 X 1500 X 175 ¹ min 25Mpa conc. with 100 x 100 x 3 mesh

1. Dimensions: W X H X D

MAN TRAP TURNSTILE - HIGH-SECURITY

MAN TRAP TURNSTILE - MEDIUM SECURITY

UNIQUE FEATURES OF OUR TURNSTILES

Mechanism

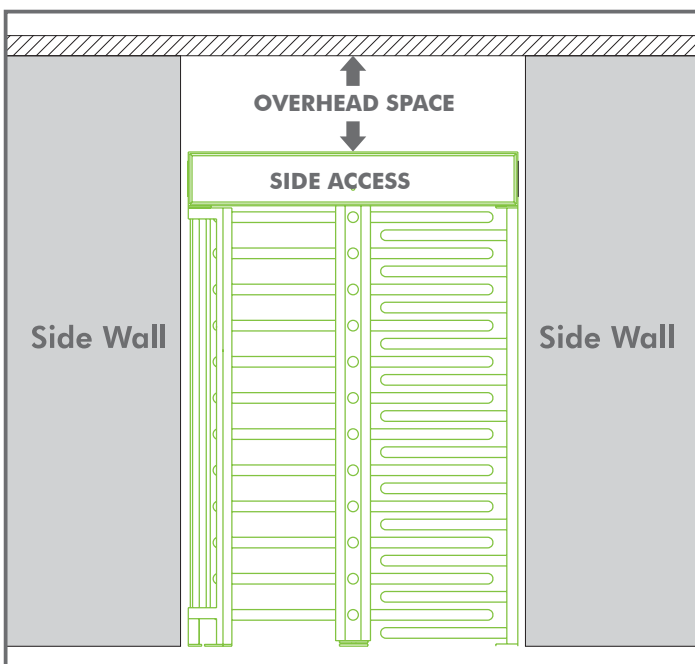

- Improved reliability thanks to proximity sensors
- Built-in Fail Safe/Fail Secure changeover options
- Rotary solenoids offer 100% duty cycle with a mean life of >50 million cycles
- Improved reliability and longevity using stainless steel and engineering plastics
- Easy installation of mechanism
- Minimal wiring required
- Anti-tamper design
- Maintenance-free
- Rotor automatically returns to locked position

Controller

- 24 V DC system
- N/O output to connect to 3rd party device for fault reporting
- Customisable rotation timer - preventing from passing through turnstile per single rotation
- Authorised anti-passback up to three transactions in one direction
- Unique PWM technology ensuring lowest power consumption (15W max., 8W standby, less than 1W in Fail Secure Mode)

Structure

- Effortless installation with floor installation template
- Modern design
- Overhead space can be closed off thanks to side access to mechanism (as per image below)
- Collapsible rotor for easy handling and moving through restricted space
- Easy access to mechanism through side entry
- Clever design ensures that mounting bolts do not pose tripping hazard
- IP65-rated protection provided for electronics and mechanism
- Flat pack design saving on freight costs

ACCESSORIES

- Stainless steel canopy - for increased protection against elements
- Motorised option
- Battery backup
- Solar option
- Remote monitoring
- Anti-climb plate for added security
- Advertising space on the Double Advert series

Unique features

- Standardised size on all models (width and height)
- 10 year warranty on the locking mechanism

2 ARM WAIST-HIGH MOTORISED TURNSTILE

2 arm waist-high advantages

- Evacuation mode
- German-manufactured drive mechanism
