Centurion Systems (Pty) Ltd reserves the right to make changes to the product described in this manual without notice and without obligation to notify any persons of any such revisions or changes. Additionally, **Centurion Systems (Pty) Ltd** makes no representations or warranties with respect to this manual. No part of this document may be copied, stored in a retrieval system or transmitted in any form or by any means electronic, mechanical, optical or photographic, without the express prior written consent of **Centurion Systems (Pty) Ltd**.

1. Introduction

1.1. Important Safety Information

ATTENTION!

To ensure the safety of people and possessions, it is important that you read all of the following instructions.

Incorrect installation or incorrect use of the product could cause serious harm.

Before handover to the end-user, the installer must ensure that the whole system is correctly installed and operates safely.

ATTENTION!

Although the Theft-Deterrent Cage is built to deter theft and tampering, it does not guarantee complete prevention.

Warnings for the Installer

CAREFULLY READ AND FOLLOW ALL INSTRUCTIONS before beginning to install the product.

- Do not in any way modify the components
- Do not leave packing materials (plastic, polystyrene, etc.) within reach of children as such materials are potential sources of danger
- Neither Centurion Systems (Pty) Ltd, nor its subsidiaries, accepts any liability caused by improper use of the product, or for use other than that for which the system was intended
- This product was designed and built strictly for the use indicated in this documentation. Any other use, not expressly indicated here, could compromise the service life/operation of the product and/or be a source of danger
- The installer must explain the operation of the D3 SMART / D5-EVO SMART / D6 SMART **Theft-deterrent Cage** and any safety hazards to the end-user - refer to "Section 5 - Installation Handover"
- Anything not expressly specified in these instructions is not permitted

Icons used in this manual

This icon indicates tips and other information that could be useful during the installation.

This icon denotes variations and other aspects that should be considered during installation.

This icon indicates warning, caution or attention! Please take special note of critical aspects that MUST be adhered to in order to prevent injury.

2. General Description

FIGURE 1. SMART OPERATOR THEFT-DETERRENT CAGE

The D3 SMART / D5-Evo SMART / D6 SMART **Theft-Deterrent Cage** is designed to significantly reduce the risk of an intruder gaining access to the operator.

Disclaimer: Due to continuous improvement in the design and manufacture of this product, the actual product may differ slightly in appearance to that which is depicted herein. Centurion Systems (Pty) Ltd cannot be held liable under any circumstance for any damage, loss or action that results from your gate operator being tampered with.

3. Product Identification

FIGURE 2. PRODUCT IDENTIFICATION

1. SMART Operator **Theft-Deterrent Cage** Overstrap
2. 3x Support Brackets (L1, L2, and R1)
3. Discus Padlock
4. Front Bar Assembly
5. Key

4. SMART Operator Theft-Deterrent Cage Installation

Images may vary according to the SMART Operator.

IMPORTANT!

In the case where one has the optional origin magnet system fitted, relocate the gate magnet as close as possible to the operator cover and reset the gate limits.

For new installations, remove the Operator Cover, Charger, and Lower Battery Tray.

For existing installations, remove the Operator Cover, battery(ies), charger, and Lower Battery Tray.

Place these parts in a safe place where they will not get damaged.

FIGURE 3

For existing installations, remove the three lock nuts, spring washers, and Top Height Adjusters, and Earth Lug.

For new installations, install the Operator as per instructions in its installation manual, up to section "**Placing the Spring Washers and Lock Nuts**" before continuing.

FIGURE 4

The three Theft-deterrent Support Brackets come attached to one another by means of small tabs. Bend the Support Brackets to break the tabs and split the three Support Brackets apart.

FIGURE 3

Each of the three support brackets differ from one another, locating in its unique position inside of the Gearbox. Refer to Figure 5 for their positions and footprints.

FIGURE 5

Place the three support brackets into the Gearbox as shown in Figure 6.

Note the orientation of each bracket.

FIGURE 6

Place the three lock nuts, spring washers, Top Height Adjusters, and Earth Lug back into position. Reassemble the Gate Operator and complete its installation as per the Operator's Installation Manual. Once the installation of the Operator is complete, place the Operator's Cover in position, and continue with the Theft-Deterrent Cage Installation as per its Installation Manual.

FIGURE 7

Push the two Gearbox Plugs (one on either side of the Gearbox) into the Gearbox.

FIGURE 9

Place the Overstrap over the top of the SMART Operator.

FIGURE 10

Always unlock the Discus Padlock before placing the Front Bar Assembly into position.

Align the two holes in the Overstrap with the two holes in the front of the SMART Operator's Gearbox, and insert the Front Bar Assembly through the holes of the Overstrap and Gearbox.

FIGURE 11

Push the Front Bar Assembly completely through the Gearbox and Overstrap, ensuring that the bar extends out the back of the Overstrap.

Take care when pushing the Front Bar Assembly through the back of the Gearbox.

Forcing it may cause damage to the Gearbox housing.

FIGURE 12

Lock the Front Bar Assembly into position, remove the Key and store it in a safe place.

The finished installation should look as shown in Figure 13.

FIGURE 13

5. Installation Handover

Once the D3 SMART / D5-Evo SMART / D6 SMART **Theft-Deterrent Cage** has been successfully installed and its operation tested, it is important for the operation and safety considerations to be explained to the end-user of the system.

Notes

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.
